Use Determination & Recommendation:

Comments:

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream did not have enough depth to meet the WBCR use at the only site evaluated. Additionally, the site is more than 2 miles from "mouth". Therefore, the committee feels there is not enough information to make a determination about the WBCR designation and recommends an interview or more data be gathered nearer bottom of the segment.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive
